**Re: A&H Building Materials, Inc. (A&H) to Cease Independent Operations as of July 30, 2010**

**Dear Valued Customer:**

As you know the construction industry and in particular the drywall supply markets have been turbulent and highly competitive for decades. Since 2008, business conditions have been depressed both nationally and locally here in Tucson and in Arizona.

Given these difficult market conditions, A&H has been attempting to rethink how it does business and has concluded that change is necessary. **After 47 years of serving Tucson, the company will no longer operate as a full-line drywall supply house. As of July 30, 2010, A&H will cease operations and fold the bulk of its activities into its larger related entity, Grant Road Lumber Company (GRL).** This is not a forced closing but rather a planned course of action to cease operations.

GRL will continue to sell and manufacture steel trusses as well as supply light gauge steel studs and track and a variety of drywall products and accessories to its customers. Since its founding in 1948, GRL has been a full line supplier of dimensional lumber, building materials, engineered wood products, windows, doors, building hardware and paint.

We regret any inconvenience this action may cause and wish to thank our many customers who have loyally stood with us these many years in successful partnership.

**You are invited to join us at Grant Road Lumber Company as we continue the tradition of "Service, Know-How and Quality Materials."**

Sincerely,

David Hauert  
President

Dave Rung  
General Manager
